

ENERGY STAR® RESIDENTIAL NEW CONSTRUCTION PROGRAMS

Dear ENERGY STAR Partner,

Revision 13 of the ENERGY STAR [Single-Family New Homes \(SFNH\) program](#) and Revision 04 of the ENERGY STAR [Multifamily New Construction \(MFNC\) program](#) have been posted, though several remaining documents will be released in January including the Pacific and Caribbean program documents and Multifamily Workbook. As a reminder, Revisions typically clarify, simplify, and improve the program, rather than increase the overall stringency of the requirements. Partners are permitted to use these Revisions immediately, at their discretion, but must apply them to all homes and apartments permitted on or after January 1, 2025.

EPA strongly encourages partners to review the [SFNH Highlights](#) and the [MFNC Highlights](#) documents to understand the most important improvements.

In addition, SFNH and MFNC 'Mark-Up' documents showing tracked changes, as well as the Current Policy Record containing all policy issues, are available on the [Policy Clarifications and Changes webpage](#).

You can learn more by reviewing the slides from our recent webinar on this topic. [Overview of Single-Family New Homes Revision 13 & Multifamily New Construction Revision 04](#).

If you have any questions or would like to view a recording of the webinar, please contact us at energystarhomes@energystar.gov. Thank you for your work promoting ENERGY STAR.

Best regards,

The ENERGY STAR Residential New Construction Team
