ENERGY STAR®, a U.S. Environmental Protection Agency program, helps us all save money and protect our environment through energy efficient products and practices. For more information, visit www.energystar.gov.

Dear ENERGY STAR® Commercial Ovens Stakeholders:

The U.S. Environmental Protection Agency (EPA) would like to remind stakeholders that the effective date for the Version 3.0 ENERGY STAR Commercial Ovens specification is January 12, 2023. On this date, only products certified to Version 3.0 and submitted by EPA-recognized certification bodies (CBs) to EPA using the Version 3.0 web service will display on our list of certified models.

Please contact EPA at cfs@energystar.gov with any questions regarding the specification. CBs should direct questions concerning the submittal of Version 3.0 certified Commercial Ovens to Certification@energystar.gov.

Thank you for your support of the ENERGY STAR program.
