KENTUCKY

The simple choice for energy efficiency.

ENERGY STAR

April 2017

Families and businesses are saving with the help of ENERGY STAR®

Kentucky is home to more than **262** businesses and organizations participating in the U.S. Environmental Protection Agency's ENERGY STAR program:

14 manufacturers of ENERGY STAR certified products

17 companies supporting independent certification of ENERGY STAR products and homes

12 companies building ENERGY STAR certified homes, one of which is committed to building 100% ENERGY STAR

as well as businesses, school districts, governments, and faith-based groups using ENERGY STAR resources to reduce energy waste in their facilities.

Toyota Motor Manufacturing Kentucky, Georgetown, KY.
ENERGY STAR Certified 2016.

Across the state of Kentucky

1,150,531 customers served by ENERGY STAR utility partners

11,754 homes have earned the ENERGY STAR

5,363 buildings (more than 350 million square feet) have been benchmarked using EPA's ENERGY STAR Portfolio Manager

622 buildings have earned the ENERGY STAR for superior efficiency, including 375 schools, 4 hotels, 4 hospitals, 79 office buildings, and 5 industrial plants

Kentucky School Boards Association

Olin Brass

State Spotlights

The **Kentucky School Boards Association**, based in Frankfort, helped more than 60 schools in 2016 to earn ENERGY STAR certification for the first time, contributing **$120 million** overall in avoided energy costs since 2010 and further supporting districts with implementing energy management plans based on the ENERGY STAR Guidelines for Energy Management.

The **Kentucky Power** Residential Efficient Products program had many successes in 2016 and past years with regard to promoting ENERGY STAR products. As of October 2016, total program energy savings were estimated at approximately **8,000,000 kWh**.

Olin Brass, a leading manufacturer of copper and copper-alloy products based in Louisville, in 2016 entered six plants in the ENERGY STAR Challenge for Industry, established a system of worker engagement, training, and rewards consistent with the ENERGY STAR energy management guidelines, and reduced its energy intensity by more than 6% for a savings of **$1 million**.
