

Line 378 – 427: The RoHS Directive is mentioned on several places. I suppose that they mean the European Directive RoHS but it is not stated anywhere. Furthermore there is no reference to relevant publication number (e.g. 2011/65/EU for the latest edition).

Line 399 – 400. This sentence may cause confusion as compliance with RoHS is mandatory (shown by CE-marking) if the product is sold in Europe. I think that it could be useful to add a clarification here.
